## PROFILE

---

Creative Front-End Developer with a solid track record of designing and implementing engaging, user- friendly web interfaces. Skilled in HTML, CSS, and JavaScript, with expertise in modern frameworks such as Angular. Adept at translating design mock-ups into pixel-perfect, responsive web pages while ensuring optimal performance and cross-browser compatibility. Passionate about user experience and committed to following best practices and industry standards. Continuously learning and adapting to new technologies to deliver innovative and efficient solutions that meet client and business needs.

## Work Experience

---

### Frontend Angular Developer

EduMarqet — October 2024 – Present

- Develop and maintain user-facing features using Angular, ensuring high performance and responsiveness across various devices.
- Integrate with RESTful APIs and GraphQL for efficient data retrieval and management, optimizing performance and flexibility for dynamic content loading.
- Collaborate with cross-functional teams to define and implement innovative solutions for the product and application interfaces.
- Create reusable, modular components and services to improve code efficiency and scalability.
- Optimize applications for maximum speed and scalability, focusing on performance tuning and troubleshooting.
- Work closely with UI/UX designers to translate designs into functional, high-quality web applications.
- Implement and manage localization features, ensuring the application supports multiple languages and provides a seamless experience for users in different regions.
- Participate in code reviews, ensuring adherence to best practices, quality standards, and the use of modern web technologies.
- Stay up to date with the latest industry trends, tools, and best practices related to frontend development.

## EDUCATION

---

Information Technology Institute (ITI) student scholarship Professional

(May/2024)

Web Development and BI

### Responsibilities:

- Developed front-end applications using Angular, focusing on user interface design, component creation, and integration with backend APIs.
- Gained hands-on experience with .NET back-end development, implementing RESTful APIs to manage data flow between the front-end and server-side systems.
- Worked on optimizing Angular applications for performance, responsiveness, and cross-browser compatibility.
- Applied best practices for clean code and software architecture in both front-end and back-end components.
- Participated in full-stack development workshops, focusing on the integration of Angular with .NET back-end systems.

### Assiut University

Faculty of Computer Science, Department of Bioinformatics

( Jul/2022)

- Senior student with a cumulative GPA of 3.1
- Graduation project: Z-helper Project

### Higher Education Initiative (HEI) Scholarship by Amidist

( Jul/2022)

- A student in the HEI program in collaboration with the American Agency and the Ministry of Higher Education.

## PROJECTS

---

- **Angular Project (E-commerce) (user-app-Admin-app)**
- **Angular Project (Tourism Company)**
- **JavaScript Project (Yummy site).**
- **JavaScript Project (Weather site).**
- **JavaScript Project (Cruds Operations).**
- **JavaScript Project (Smart System Login).**
- **bootstrap Template (second portfolio).**
- **bootstrap Template (portfolio).**
- **bootstrap Template (bootstrap-template).**
- **HTML, CSS Template (fakir Template).**
- **HTML, CSS Template (Bakery).**

## EXPERIENCE

---

- A Member of ICPC Asyut university in Oct 2022
  - Co-organizer at GDG Asyut (Google Developer Groups) in Jan 2022.
  - Web Developer in GDSC (Google Developer Student Clubs) since 10 Jun 2021. •
- Member of web committee in IEEE in 2021

## TECHNICAL SKILLS

---

**Frontend Technologies:** (HTML, CSS, SASS, Prime NG, Bootstrap, Tailwind, JavaScript, TypeScript, Angular)

**Backend Technologies:** (.NET, Web API, GraphQL)

**Database Management:** (SQL Server)

**Version Control:** (Git, GitHub, Gitlab)

**Tools & Other Technologies:** (Visual Studio Code, Mattermost, Trello, Figma, Docker)

## CERTIFICATIONS

---

- Certification for organized the choice conference from Amidist in April 2022
- Certificate of Getting started as a freelancer (khamsat) from Mahar-Tech in June 2024.
- Certification for complete frontend course from Route academy july-2020

Certificate of Freelancing Basics from Mahar-Tech in June 2024.

- Certificate of Getting started as a freelancer (Mostaqil) from Mahar-Tech in June 2024.

Certified Front-end training from ITI in July 2021.
